February 2026

CLEAN ENERGY LOCAL CURRENCY FUND

CEF ABOUNT CLEAN ENERGY LOCAL CURRENCY FUND

The Clean Energy Local Currency Fund (CeF) is a Nigeria-focused climate infrastructure fund designed to provide long-term local currency financing to clean energy and sustainable infrastructure projects.

It is specifically designed to mobilize domestic institutional capital—particularly from pension funds and insurance companies into climate-aligned investments, addressing a key financing gap in Nigeria's energy sector.

CLIMATE BONDS STANDARD APPROVED VERIFIER

GREEN CERTIFIED + INVESTMENT GRADE RATED

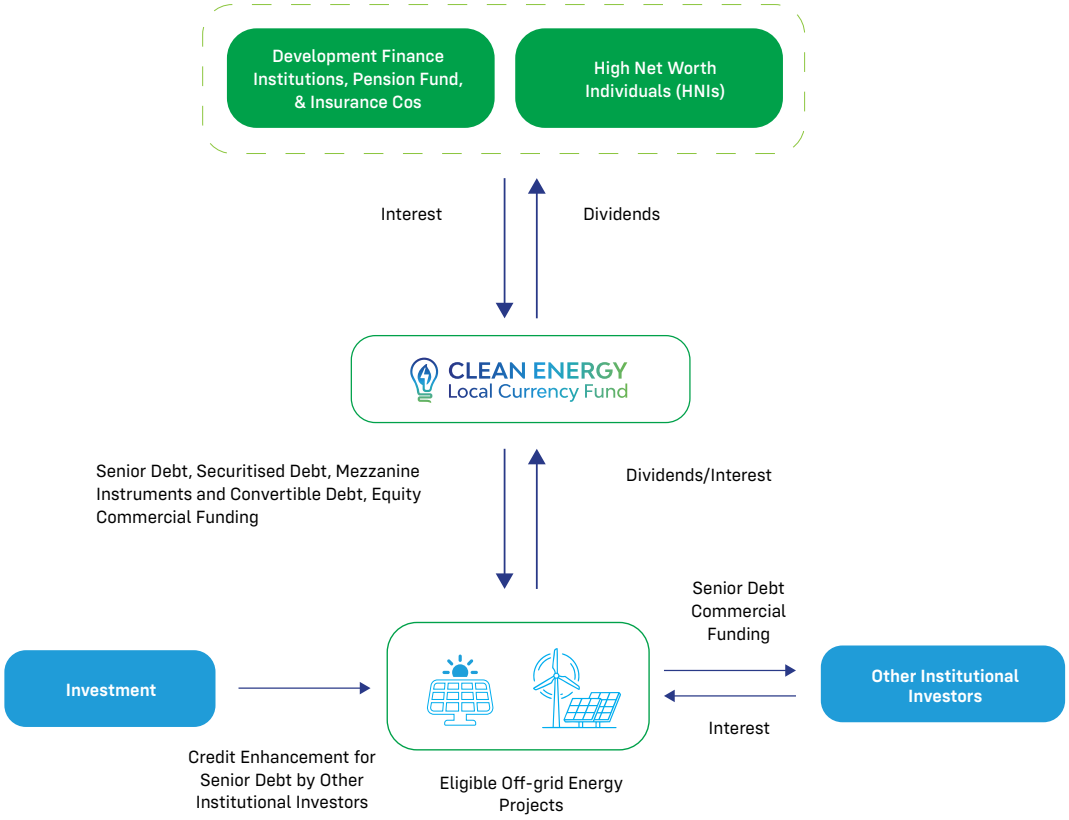
The Clean Energy Local Currency Fund is Climate Bonds Initiative-certified at the portfolio level, confirming that its investments meet internationally recognized green finance standards.

PRIORITY SECTORS

- Energy Access
- Clean Cooking
- Agro-Processing
- Telecommunications
- Transportation

FUND STRUCTURE

FUND STRUCTURE



AIM OF THE CEF FUND

- Provide domestic capital to support climate mitigation and energy transition projects
- Support small-scale clean energy generation
- Support alternative clean energy
- Reduce FX exposure by providing local currency financing
- Create a diversified portfolio of investments (across multiple value chains)
- Support low- carbon energy infrastructure

IC COLLABORATION WITH INFRACREDIT— CLEAN ENERGY FUNDING PROGRAMME (CEFP)

CEF operates as a partner under InfraCredit's Clean Energy Funding Programme, a joint platform to aggregate, de-risk, and mobilise domestic institutional capital for clean energy projects.

Blended finance model:

InfraCredit provides AAA-rated guarantee; CEF provides subordinated or bridge capital — together unlocking senior naira debt from pension funds and insurers.
